

## NORWESCO Elliptical Leg Tanks

The elliptical tank style is designed to provide the greatest capacity with the lowest center of gravity, making it the best design available for transporting larger volumes. Norwesco elliptical tanks feature molded-in legs that act as "baffles" to reduce sloshing and provide increased stability during transport. ALL Norwesco elliptical leg tanks require full length bottom support as well as support bands.

**TANK BANDS ARE REQUIRED FOR WARRANTY TO BE VALID!**

| Part#        | Capacity | Width | Height | Length | Outlet | Bands Required | Price       |
|--------------|----------|-------|--------|--------|--------|----------------|-------------|

With the broadest leg tank line available, Norwesco manufactures a size that will fit your needs. Used primarily for transport and nursing applications, Norwesco's leg tanks feature molded-in legs that act as "baffles" to reduce sloshing. When pricing leg tanks be sure to add the price of tie downs.

**Tie downs are required for 925 gallon tanks and larger for warranty to be valid.**
