

ASSIGN - Foam Concentrate

Assign is a tough, flexible foam marker intended to tolerate a broad variety of conditions including adverse weather conditions. **Assign** includes components that allows the product to perform in practically any water, hard, soft, hot or cold. **Assign** will make a firm, dense foam with outstanding stability. DIRECTIONS FOR USE: Use 1 gallon of **Assign** for every 100 gallons of water. If foam is runny or watery, put in additional **Assign** until preferred texture and stability are attained. If foam is too thick, add water.
